- (2) The minimum tax is equal to two percent of annual turnover arising from self-employment in the performance of services.
- (3) Liability for minimum tax is imposed only if the amount of income tax payable for a year is less than the amount of the minimum tax computed for the year, and is payable at the same time and subject to the same procedures as regular income tax liability.
- (4) The Minister may by regulations phase-in the application of the minimum tax imposed under this section, beginning with selected categories of taxpayers and gradually extending the reach of the minimum tax regime.
- (5) For the purposes of this section “turnover” shall have the same meaning as in section 28A.

Meaning of
distribution
(31 of 1970
25 of 1971)

- 38.** (1) In relation to any company "distribution" means-
- (a) any dividend paid by the company including a capital dividend;
- (b) any other distribution of the assets of the company (whether in cash or otherwise) in respect of the shares of the company, except so much as represents the repayment of share capital, or is equal in amount or value to any new consideration given on the distribution;
- (c) any redeemable share capital or security issued by the company in respect of shares in the company to the extent that such share capital or security is not issued for a new consideration;
- (d) any interest or other distributions out of assets of the company in respect of securities of the company

(except so much of any, of any such distribution as represents the principal thereby secured), where the securities are either-

- (i) securities issued as mentioned in paragraph (c);
 - (ii) securities convertible directly or indirectly into shares of the company;
 - (iii) securities under which a consideration given by the company for the use of the principal secured is to any extent dependent on the result of the company's business or any part of it, under which the consideration so given represents more than a reasonable commercial return on the use of that principal; or
 - (iv) securities issued by the company to a non-resident company, where the former is a subsidiary of the latter or both are subsidiaries of a third company;
- (e) any such amount as is required to be treated as a distribution by subsection (2) or (3).
- (2) Where on a transfer of assets or liabilities by a company to its members or to a company by its members the amount or value of the benefit received by a member (taken according to its market value) exceeds the amount of value (so taken) of any new consideration given by him, the company shall be treated as making a distribution to him of an amount equal to the difference.
- (3) Where, after the first day of January, 1969 a company-
- (a) repays any share capital, or has done so at any time after the commencement of the accounting period for the year of assessment 1970, and
 - (b) at or after the enactment of this section issues as paid up otherwise than by receipt of a new consideration any share capital, not being redeemable share capital, the amount so paid up shall be treated as a distribution made in respect of the shares on which it is paid up, except in so far as that amount exceeds the amount or

aggregate amount of share capital so repaid less any amounts previously so paid up and treated by virtue of this subsection as a distribution.

- (4) Where-
 - (a) a company issues any share capital as paid up otherwise than by the receipt of new consideration, and has done so after the enactment of this section; and
 - (b) any amount so paid up does not fall to be treated as a distribution, then for the purposes of subsections (1) to (3), distributions afterwards made by the company in respect of shares representing that share capital shall not be treated as repayments of share capital, except to the extent to which those distributions, together with any relevant distributions previously so made, exceed the amounts so paid up (then or previously) on such shares after that date and not falling to be treated as distributions.
- (5) In subsection (4) "relevant distributions" means so much of any distribution made in respect of shares representing the relevant share capital as apart from that subsection would be treated as a repayment of share capital, but by virtue of that subsection cannot be so treated.
- (6) For the purposes of subsections (4) and (5) all shares of the same class shall be treated as representing the same share capital, and where shares are issued in respect of other shares, or are directly or indirectly converted into or exchanged for other shares, all such shares shall be treated as representing the same share capital.
- (7) In this section "new consideration" means consideration not provided directly or indirectly out of assets of the company, and in particular does not include amounts retained by the company by way of capitalising a distribution, so, however, that where share capital, has been issued at a premium representing new consideration, any part of that premium afterwards applied in paying up the share capital shall be treated as new consideration also for that share capital.
- (8) A distribution shall be treated under this section as made, or consideration as provided, out of assets of a company if the cost falls on the company.

- (9) The following kinds of expenditure when paid by a close company to a participator shall be treated as distributions-
- (a) interest, or other consideration paid or given by the company to a participator who is also a director (other than a whole-time service director) or an associate of such participator for the use of money advanced by any person, or to a person who is an associate of such director for the use of money so advanced;
 - (b) any annuity or other annual payment other than interest;
 - (c) any rent, royalty or other consideration paid for the use of property other than money.
- (10) For the purposes of subsection (9) (c) in the case of tangible property or copyrights, the excess only over what the Commissioner-General may consider to be reasonable consideration therefor, shall be treated as a distribution.

Provided further that nothing in this subsection shall apply to income the right to which has been transferred, assigned or otherwise disposed of to or for the benefit of any ecclesiastical, charitable or educational institution, organisation or endowment of a public character before the 1st January, 1958.

RELIEF IN CASES OF DOUBLE TAXATION

- Relief from Double Taxation (31 of 1970) **89*** (1) If the Minister by order declares that arrangements specified in the order have been made with the Government of any country with a view to affording relief from double taxation in relation to income tax and any tax of a similar character imposed by the laws of that country, and that it is expedient that those arrangements should have effect, then subject to the provisions of the next succeeding section the arrangements shall, notwithstanding anything in any enactment, have effect in relation to income tax in so far as-
- (a) they provide for relief from tax; or
 - (b) they provide for-
 - (i) charging the income arising from sources in Guyana to persons not resident in Guyana; or
 - (ii) determining the income to be attributed to such persons and their agencies, branches or establishments in Guyana; or
 - (iii) determining the income to be attributed to persons resident in Guyana who have special relationships with persons not so resident.

** Act 31 of 1970 which repealed the former sections 60 to 65 and replaced them with the present sections 89, 90 and 91 provided that notwithstanding the repeal of sections 60, 61 and 62, until arrangements are made with those Commonwealth countries prescribed in the First Schedule to which the said sections 60, 61 and 62 applied, the said sections 60, 61 and 62 shall continue to have effect for the purpose of double taxation relief with respect to those Commonwealth countries, so however that the present sections 89, 90 and 91 shall have effect for the purpose of withholding tax. For the former sections 60, 61 and 62, see Volume V of the 1953 Edition, Chapter 299 as amended by Ordinance 22 of 1956.*

- (2) The provisions of Part I of the Fourth Schedule shall have effect where arrangements which have effect by virtue of this section provide that tax payable under the laws of the country concerned shall be allowed as a credit against tax payable in Guyana.
- (3) The Minister may by regulations, which shall be subject to negative resolution of the National Assembly, amend the Fourth Schedule or substitute a new schedule therefor.
- (4) Where, under any arrangements which have effect by virtue of

this section, relief may be given either in Guyana or in the country with the Government of which the arrangements are made, in respect of any income, and it appears that the assessment to income tax made in respect of the income is not made in respect of the full amount thereof or is incorrect having regard to the credit, if any, which falls to be given under the arrangements, any such assessment may be made as is necessary to ensure that the total amount of the income assessed and the proper credit, if any, is given in respect thereof, and where the income is entrusted to any person in Guyana for payment, any such assessment may be made on the recipient of the income under this Act.

- (5) Any arrangements to which effect is given under this section may include provision for relief from tax for periods before the commencement of this section or before the making of the arrangements and provisions as to income which is not itself subject to double taxation, and the preceding provisions of this section shall have effect accordingly.
- (6) Any order made under this section may be revoked by a subsequent order and such revoking order may contain such transitional provisions as appear necessary and expedient.

Unilateral
Relief.

- 90.**
- (1) To the extent appearing from the following provisions of this section and Parts II and III of the Fourth Schedule, relief from income tax shall be given in respect of income tax payable under the law of any country outside Guyana by allowing the last mentioned as a credit against income tax payable in Guyana notwithstanding that there are not for the time being in force any arrangements under section 89 providing for such relief.
 - (2) The said relief (hereinafter referred to in this section and in Parts II and III of the Fourth Schedule as “Unilateral Relief”) shall be such relief as would fall to be given under Part I of the Fourth Schedule if arrangements with the Government of the foreign country containing such provision as appears in so much of Part II of the Fourth Schedule as applied to that country were in force by virtue of section 89, and any reference occurring in the said Part 1 which imports a reference to relief under arrangements for the time being in force by virtue of section 89 shall be deemed to import also a reference to unilateral relief:

Provided that-

- (a) the total credit to be allowed by way of unilateral relief in the case of any income shall not, if the country is within prescribed Commonwealth countries, exceed one-half and in any other case one quarter of the sum of the limits specified in regulations 4 and 5 of Part 1 of the Fourth Schedule; and
 - (b) the provisions of Part 1 of the Fourth Schedule shall, as respects unilateral relief, have effect subject to the provisions set out in Part 111 the said Fourth Schedule.
- (3) Where unilateral relief may be given in respect of any income and it appears that the assessment to income tax in respect of the income is not made in respect of the full amount thereof or is incorrect having regard to the credit, if any, which falls to be given by way of unilateral relief, any such assessment may be made as is necessary to ensure that the total amount of income is assessed and the proper credit, if any is given in respect thereof, and where the income is entrusted to any person in Guyana for payment, any such assessment may be made on the recipient of the income under this Act.
- (4) References in this section and in Parts II and III of the Fourth Schedule to tax payable or tax paid under the law of a country outside Guyana include only references to taxes which are charged on income or profits and correspond to income tax in Guyana, and, without prejudice to the generality of the foregoing, a tax which is payable under the law of a province, state or other part of a country, or which is levied by or on behalf of a municipality or other local body, shall not be deemed for the purposes of this subsection to correspond to income tax.

Power to vary
withholding
tax
(31 of 1970)

91. If the Minister, by order, so provides, the rate of withholding tax shall be reduced to the extent so provided as respects any person, notwithstanding that there are not for the time being in force any arrangements under section 89 providing for such relief.

Official
Secrecy
(22 of 1956)

92. Where, under any law in force in any part of Commonwealth, provision is made for the allowance of relief from income tax in respect of the payment of income tax in Guyana, the obligation as to secrecy imposed by section 4 shall not prevent the disclosure to the authorised officers of the Government in that part of the Commonwealth of any facts necessary to enable the proper relief to be

given in cases where relief is claimed from income tax in Guyana or from income tax in that part or place aforesaid.

Exchange of
information
(14 of 1989)

- 92A.** (1) The Government may enter into an agreement with the Government of any other country for the exchange of information for the prevention of evasion or avoidance of income tax chargeable under this Act or under the corresponding law in force in that country, the investigation of cases, of such evasion or avoidance, or other matters relating to income tax.
- (2) (a) The Minister may by order declare that an agreement referred to in subsection (1) shall have effect in accordance with its terms throughout and for its duration in relation to income tax notwithstanding anything in any other written law.
- (b) The Minister may subject to negative resolution of the National Assembly, make regulations for carrying out any agreement referred to in subsection (1).
- (c) The obligation as to secrecy imposed by section 4 shall not prevent the disclosure to an authorised officer of the Government of a country with which an agreement, referred to in subsection (1), has been entered any information within the requirement or contemplation of that agreement.

- 93.** (1) Notwithstanding any provision of this Act to the contrary, on the making of any payment on or after the 1st day of January 1963, to any employee, holder of any office or on account of any emoluments (including, except the Commissioner-General allows otherwise, any payments made in advance of emoluments or payment on loan to be repaid out of emoluments) arising or accruing in or derived from or received in Guyana during the year 1963 or any year thereafter, tax shall, subject to and in accordance with any regulations made under section 117, be deducted or withheld by the employer or the person making the payment notwithstanding that when the payment is made no assessment has been made in respect of the emoluments or that the tax on the emoluments is for a year of assessment other than the year during which the payment is made:

s 8. (13 of 1996)

Provided that if any question arises whether any emoluments are or are not emoluments in respect of which tax shall be deducted or withheld pursuant to this section, such question shall be determined by the Commissioner-General subject to any provisions as to appeals against such determination as may be provided by the regulations made under section 117, and to the provisions of this Act relating to appeals.

- (2) The tax deducted or withheld as required by subsection (1) shall, subject to and in accordance with any regulations made under section 117, be paid to the Commissioner-General by the employer or the person deducting or withholding the same at such time or times and by such date or dates as may be prescribed and on the payment thereof the Commissioner-General shall send to the employer or such person a receipt which shall to the extent of the amount referred to therein be a good and sufficient discharge of the liability of the employer or such person for any amount deducted or withheld as required by the provisions of this section.

- (5) All amounts deducted or withheld by any person pursuant to subsection (1) shall be deemed to be held in trust by such person for the State and shall not be subject to attachment in

respect of any debt or liability of the said person and in the event of any liquidation, assignment, or bankruptcy the said amounts shall form no part of the estate in liquidation, assignment or bankruptcy but shall be paid in full to the Commissioner-General before any distribution of the property is made.

- (6) Every person who shall have deducted or withheld any tax pursuant to subsection (1) shall deliver personally or send by post within such time or times as may be prescribed to the person from whose emoluments the tax was deducted or withheld or to such other person as may be prescribed such certificate or statement or account relating to the amount of emoluments and the amount of tax deducted by him as may be prescribed.
- (7) If any person shall fail to comply with subsection (6) or shall fail to deliver or send to the Commissioner-General within such time or times as may be prescribed, any return, certificate or account or any copy thereof which he may be required by regulations made under section 117 to deliver or send to the Commissioner-General for the purpose of rendering him accountable to the Commissioner-General for any tax deducted or withheld by him pursuant to the provisions of this section, or to enable the Commissioner-General to give credit for tax deducted or withheld to the person from whose emoluments the tax was deducted or withheld, he shall be liable on summary conviction to a fine of ten dollars for every day during which such failure shall continue:

"Guyana tax" means income tax;

"foreign income tax" means any foreign tax which corresponds to income tax;

"total income" means the aggregate amount of the income of any person from the sources specified in section 5 of the Act for a year of income.

- (2) Where arrangements having effect by virtue of the said section 89 of the Act provide for any tax chargeable under the laws of the country concerned being treated as income tax, that tax shall, notwithstanding anything contained in this regulation be treated as foreign income tax, or foreign tax other than foreign income tax, as the case may be.
- (3) Any reference in these Regulations to foreign tax or foreign income tax shall be construed, in relation to credit to be allowed under any arrangements, as a reference only to tax chargeable under the laws of the country with the Government of which the arrangements were made.

GENERAL

2. (1) Subject to the provisions of these Regulations where, under the arrangements, credit is to be allowed against any Guyana tax chargeable in respect of any income, the amount of the Guyana taxes so chargeable shall be reduced by the amount of the credit.

- (2) Nothing contained in this regulation authorises the allowance of credit against any Guyana tax against which credit is not allowable under the arrangements.

REQUIREMENT AS TO RESIDENCE

3. Credit shall not be allowed against tax for any year of income unless the person in respect of whose income the tax is chargeable is resident in Guyana for that year.

LIMIT ON TOTAL CREDIT

4. The credit shall not exceed the amount which would be produced by computing the amount of the income of the person in question in accordance with the provisions of the Act, and then charging it to income tax at a rate ascertained by dividing the income tax chargeable (before allowance of credit under any arrangements having effect under section 89 of the Act) on the total income by the amount of the total income.
5. Without prejudice to the provisions of the last preceding regulation, the total credit to be allowed to a person against income tax for any year of income for foreign tax under all arrangements having effect by virtue of section 89 of the Act, shall not exceed the total tax payable by him for that year.

EFFECT ON COMPUTATION OF INCOME OF ALLOWANCE OF CREDIT

6. (1) In computing the amount of the income -
- (a) no deduction shall be allowed in respect of foreign tax (whether in respect of the same or any other income);
 - (b) where the income tax chargeable depends on the amount received in Guyana, the said amount shall be increased by the appropriate amount of the foreign tax in respect of the income;
 - (c) where the income includes a dividend and under the arrangements foreign tax not chargeable directly or by deduction in respect of the dividend is to be taken into account in considering whether any and if so what, credit is to be given against income tax in respect of the dividend the amount of the income shall be increased

by the amount of the foreign tax not so chargeable which falls to be taken into account in computing the amount of the credit; but notwithstanding anything in the preceding provisions of this paragraph a deduction shall be allowed of any amount by which the foreign tax in respect of the income exceeds the credit therefor.

- (2) Subparagraphs (a) and (b) of the preceding paragraph (but not the remainder thereof) shall apply to the computation of total income for the purposes of determining the rate mentioned in regulation 4 and shall apply thereto in relation to all income in the case of which credit falls to be given for foreign tax under arrangements for the time being in force under section 89 of the Act.
7. (1) Where, in the case of any dividend, foreign income tax not chargeable directly or by deduction in respect of the dividend is, under the arrangements, to be taken into account in considering whether any, and if so what, credit is to be given against income tax in respect of the dividend, the foreign income tax not so chargeable which is to be taken into account shall be that borne by the body corporate paying the dividend upon the relevant profits in so far as it is properly attributable to the proportion of the relevant profits which is represented by the dividend.
- (2) For the purposes of paragraph (1) the relevant profits are -
 - (a) if the dividend is paid for a specified period, the profits of that period;
 - (b) if the dividend is not paid for a specified period but is paid out of specified profits, those profits;
 - (c) if the dividend is paid neither for a specified period nor out of specified profits, the profits of the last period for which accounts of the body corporate were made up which ended before the dividend became payable:

Provided that if, in a case falling under subparagraph (a) or subparagraph (c), the total dividend exceeds the profits available for distribution of the period mentioned in subparagraph (a) or subparagraph (c), as the case may be, the relevant profits shall be the profits of that period plus so much of the profits available for distribution of preceding periods

(other than profits previously distributed or previously treated as relevant for the purposes of this paragraph) as equal to the excess; and for the purposes of this proviso the profits of the most recent preceding period shall first be taken into account, then the profits of the next most recent preceding period, and so on.

8. Where -
- (a) the arrangements provide, in relation to dividends of some classes, but not in relation to dividends of other classes, that foreign tax not chargeable directly or by deduction in respect of dividends is to be taken into account in considering whether any, and if so what, credit is to be given against income tax in respect of the dividends; and
 - (b) a dividend is paid which is not of a class in relation to which the arrangements so provide, then, if the dividend is paid to a company which controls, directly or indirectly, not less than one-half of the voting power in the company paying the dividend, credit shall be allowed as if the dividend were a dividend of a class in relation to which the arrangements so provide.

Where the amount of any credit given under the arrangements is rendered excessive or insufficient by the reason of any adjustment of the amount of any tax payable either in Guyana or under the law of any other country, nothing in this Act or in any other enactment limiting the time for making assessments or claims for relief shall apply to any assessment or claim made not later than six years from the time when all such assessments, adjustments and other determinations have been made, whether in Guyana or elsewhere, as are material in determining whether any, and if so, what credit falls to

2. Subject to the provisions of paragraph 3, where an enterprise of a Contracting State carries on business in the other Contracting State through a permanent establishment situated therein, there shall be attributed to the permanent establishment the profits which it might be expected to make if it were a distinct and separate enterprise engaged in the same or similar activities under the same or similar conditions and dealing wholly independently with the enterprise of which it is a permanent establishment.
3. In determining the profits of a permanent establishment situated in a Contracting State, there shall be allowed as deductions all expenses which would be deductible under the law of that State (if the permanent establishment were an independent enterprise) in so far as such expense are reasonably allocable to the permanent establishment including executive and general administration expense so deductible and allocable, whether incurred in the Contracting State in which the permanent establishment is situated or elsewhere.
4. In so far as it has been customary in a Contracting State to determine the profits to be attributed to a permanent establishment on the basis of an apportionment of the total profits of the enterprise to its various parts, nothing in paragraph 2 shall preclude that Contracting State from determining the profits to be taxed by such an apportionment as may be customary, the method of apportionment adopted shall,

however, be such that the result shall be in accordance with the principles embodied in this Article.

5. No profits shall be attributed to a permanent establishment by reason of the mere purchase by that permanent establishment of goods or merchandise for the enterprise.
6. For the purpose of the preceding paragraphs, the profits to be attributed to the permanent establishment shall be determined by the same method year by year unless there is a good and sufficient reason to the contrary.
7. Where profits include items of income which are dealt with separately in other Articles of this Convention, the provisions of this Article shall not affect the application of the provisions of those other Articles with respect to the taxation of such items of income.

1. Dividends paid by a company which is a resident of a Contracting State to a resident of the other Contracting State may be taxed in that other State.
2. However, such dividends may also be taxed in the Contracting State of which the company paying the dividends is a resident, and according to the laws of that State, but if the recipient is the beneficial owner of the dividends the tax so charged shall not exceed 15 percent:
 - (a) in the case of Canada, of the gross amount of the dividend, and
 - (b) in the case of Guyana, of the amount of the dividend actually distributed.

The provisions of this paragraph shall not affect the taxation of the company on the profits out of which the dividends are paid.

3. The provisions of paragraphs 1 and 2 shall not apply if the beneficial owner of the dividends, being a resident of a Contracting State, carries on business in the other Contracting State of which the company paying the dividends is a resident, through a permanent establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the holding in respect of which the dividends are paid is effectively connected with such permanent establishment or fixed base. In such case the provisions of Article 7 or Article 14, as the case may be shall apply.
4. Where a company which is a resident of only one of the Contracting States derives profits or income from the other Contracting State, that

other State may not impose any tax on the dividends paid by the company, except in so far as such dividends are paid to a resident of that other State or in so far as the holding in respect of which the dividends are paid is effectively connected with a permanent establishment or a fixed base situated in that other State, nor subject the company's undistributed profits to a tax on undistributed profits even if the dividends paid or the undistributed profits consist wholly or partly of profits or income arising in such other State.

5. Nothing in this Convention shall be construed as preventing a Contracting State from imposing on the earnings of a company attributable to a permanent establishment in that State, tax in addition to the tax which would be chargeable on the earnings of a company which is a resident of that State, provided that any additional tax so imposed shall not exceed 15 percent of the amount of such earnings which have not been subjected to such additional tax in previous taxation years. For the purpose of this provision, the term "earning" means the profits attributable to a permanent establishment in a Contracting State in a year and previous years after deducting therefrom all taxes, other than the additional tax referred to herein, imposed on such profits by that State.
6. The term "dividends" as used in this Article:
 - (a) in the case of Guyana includes any income which under the tax law of Guyana is treated as a distribution;
 - (b) in the case of Canada includes any income which under the tax law of Canada is treated as a dividend.

ARTICLE 11

INTEREST

1. Interest arising in one of the Contracting States and paid to a resident of the other Contracting State may be taxed in that other State.
2. However, such interest may also be taxed in the Contracting State in which it arises, and according to the laws of that State, but if the recipient is the beneficial owner of the interest the tax so charged shall not exceed-
 - (a) in the case of Canada, 15 percent, and
 - (b) in the case of Guyana, 25 percent, of the gross amount of the interest.

3. The provisions of paragraphs 1 and 2 shall not apply if the beneficial owner of the interest, being a resident of one of the Contracting States, carries on business in the other Contracting State in which the interest arises through a permanent establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the debt-claim in respect of which the interest is paid is effectively connected with such permanent establishment or fixed base. In such case the provision of Article 7 or Article 14, as the case may be, shall apply.
4. Notwithstanding the provisions of paragraph 2, interest derived from sources within a Contracting State shall be exempt from tax in that State if it is beneficially owned by the Government of the other Contracting State or by an instrumentality of that other State, not subject to tax in that other contracting State on its income.
5. The term "instrumentality" as used in this Article means any agency or entity created or organized by the Government of either Contracting State in order to carry out governmental functions.
6. Interest shall be deemed to arise in a Contracting State when the payer is that State itself, a political subdivision, a local authority or a resident of that State. Where, however, the person paying the interest, whether he is a resident of a Contracting State or not, has in a contracting state a permanent establishment or a fixed base in connection with which the indebtedness on which the interest is paid was incurred, and such interest is borne by such permanent establishment or fixed base, then such interest shall be deemed to arise in the State in which the permanent establishment or fixed base is situated.
7. Where, by means of a special relationship between the payer and the beneficial owner or between both of them and some other person, the amount of the interest, having regard to the debt-claim for which it is paid, exceeds the amount which would have been agreed upon by the payer and the beneficial owner in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount. In such case, the excess part of the payments shall remain taxable according to the laws of each Contracting State, due regard being had to the other provisions of this Convention.
8. In this Article, the term "interest" means income from Government securities, from bonds or debentures, whether or not secured by mortgage, or from any other form of indebtedness, as well as all other income assimilated to income from money lent by the taxation law of

the State in which the income arises. However, the term "interest" does not include income dealt with in Article 10.

ARTICLE 12

ROYALTIES

1. Royalties arising in a Contracting State and paid to a resident of the other Contracting State may be taxed in that other State.
2. However, such royalties may also be taxed in the Contracting State in which they arise, and according to the laws of that State, but if the recipient is the beneficial owner of the royalties the tax so charged shall not exceed 10 percent of the gross amount of the royalties.
3. The term "royalties" as used in this Article means payments of any kind received as a consideration for the use of, or the right to use, copyright of literary, artistic or scientific work including cinematograph films and films or tapes for radio or television broadcasting, any patent, trademark, design, or model, plan secret formula or process or other like property or rights, or for the use of or the right to use industrial, commercial or scientific equipment, or for the use of or the right to use industrial, commercial or scientific information, or experience.
4. The provisions of paragraphs 1 and 2 shall not apply if the beneficial owner of the royalties, being a resident of a Contracting State carries on business in the other Contracting State in which the royalties arise through a permanent establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the right or property in respect of which the royalties are paid is effectively connected with such permanent establishment or fixed base. In such case the provisions of Article 7 or Article 14, as the case may be, shall apply.
5. Royalties shall be deemed to arise in a Contracting State when the payer is that State itself, a political subdivision, a local authority or a resident of that State. Where, however, the person paying the royalties, whether he is a resident of a Contracting State or not, has in a Contracting State a permanent establishment or fixed base in connection with which the obligation to pay the royalties was incurred, and such royalties are borne by such permanent establishment or fixed base, then such royalties shall be deemed to arise in the State in which the permanent establishment or fixed base is situated.
6. Where, by reason of a special relationship between the payer and the beneficial owner or between both of them and some other person, the

amount of the royalties, having regard to the use, right or information for which they are paid, exceeds the amount which would have been agreed upon by the payer and the beneficial owner in the absence of such relationship, the provisions of this Article shall apply only to the last mentioned amount. In such case, the excess part of the payments shall remain taxable according to the laws of each Contracting State, due regard being had to the other provisions of this Convention.

ARTICLE 13

MANAGEMENT FEES

1. Management fees arising in a Contracting State and paid to a resident of the other Contracting State may be taxed in that other State.
2. However, such management fees may also be taxed in the Contracting State in which they arise, and according to the laws of that State, but if the recipient is the beneficial owner of the management fees the tax so charged shall not exceed 10 percent of the gross amount of the management fees.
3. The term "management fees" as used in this Article means payments of any kind to any person, other than to an employee of the person making the payments, for, or in respect of, the provision of industrial or commercial advice, or management or technical services, or similar services or facilities, but it does not include payments for independent personal services mentioned in Article 14.
4. The provisions of paragraphs 1 and 2 shall not apply if the beneficial owner of the management fees, being a resident of a Contracting State, carries on business in the other Contracting State in which the management fees arise through a permanent establishment situated therein, and the obligation in respect of which the management fees are paid is effectively connected with such permanent establishment. In such case the provisions of Article 7 shall apply.
5. Management fees shall be deemed to arise in a Contracting State when the payer is that State itself, a political subdivision, a local authority or a resident of that State. Where, however, the person paying the management fees, whether he is a resident of a Contracting State or not, has in a Contracting State a permanent establishment in connection with which the obligation to pay the management fees was incurred, and such management fees are borne by such permanent establishment, then such management fees shall be deemed to arise in the State in which the permanent establishment is situated.

6. Where, by reason of a special relationship between the payer and the beneficial owner or between both of them and some other person, the amount of the management fees, having regard to the advice services or use for which they are paid, exceeds the amount which would have been agreed upon by the payer and the beneficial owner in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount. In such case, the excess part of the payments shall remain taxable according to the laws of each contracting State, due regard being had to the other provisions of this Convention.

ARTICLE 14

INDEPENDENT PERSONAL SERVICES

1. Income derived by a resident of a Contracting State in respect of independent personal services shall be taxable only in that State unless he has a fixed base regularly available to him in the other Contracting State for the purpose of performing those services. If he has or had

such fixed base, the income may be taxed in the other Contracting State but only so much of it as is attributable to that fixed base.

2. The term "independent personal services" includes independent scientific, literary, artistic, educational and teaching activities as well as the independent activities of physicians, lawyers, engineers, architects, dentists and accountants.

If the employment is so exercised, such remuneration as is derived therefrom may be taxed in that other Contracting State.
2. Notwithstanding the provisions of paragraph 1, remuneration derived by a resident of one of the Contracting States in respect of an employment exercised in the other Contracting State shall be subjected to tax only in the first mentioned Contracting State if the recipient is

present in the other Contracting State for a period or periods not exceeding in the aggregate 183 days in the tax year, and either -

- (a) the remuneration is paid by, or on behalf of, an employer who is not a resident of the other Contracting State, and such remuneration is not deducted from the profits of a permanent establishment which the employer has in the other Contracting State; or

not to affect their general character.

3. This Convention shall not apply to any company, trust or partnership that is a resident of a Contracting State and is beneficially owned or controlled directly or indirectly by one or more persons who are not residents of that State if the amount of the tax imposed on the income or capital of the company, trust or partnership by that State is substantially lower than the amount that would be imposed by that State if all the shares of the capital stock of the company or all of the interests in the trust or partnership, as the case may be, were beneficially owned by one or more individuals who were residents of that State.

If the enterprise carries on business as aforesaid, the profits of the enterprise may be taxed in the other State but only so much of them as is attributable to that permanent establishment.
- (2) Subject to the provisions of paragraph (3), where an enterprise of a Contracting State carries on business in the other Contracting State through a permanent establishment situated therein, there shall in each Contracting State be attributed to that permanent establishment the profits which it might be expected to make if it were a distinct and separate enterprise engaged in the same or similar activities under the same or similar conditions and dealing wholly independently with the enterprise of which it is a permanent establishment.
- (3) In determining the profits of a permanent establishment, there shall be allowed as deductions expenses which are incurred for the purposes of the permanent establishment, including a reasonable allocation of executive and general administrative expenses incurred for the purposes of the enterprise as a whole, whether in the Contracting State in which the permanent establishment is situated or elsewhere.

- (1) Where:
 - (a) an enterprise of a Contracting State participates directly or indirectly in the management, control or capital of an enterprise of the other Contracting State; or
 - (b) the same persons participate directly or indirectly in the management, control or capital of an enterprise of a Contracting State and an enterprise of the other Contracting State, and in either case conditions are made or imposed between the two enterprises in their commercial or financial relations which differ from those which would be made between independent enterprises, then any profits which, but

for those conditions, would have accrued to one of the enterprises, may be included by a Contracting State in the profits of that enterprise and taxed accordingly.

- (2) Where a Contracting State includes in the profits of an enterprise of that State - and taxes accordingly - profits on which an enterprise of the other Contracting State has been charged to tax in that other State and the profits so included are profits which would have accrued to the enterprise of the first-mentioned State if the conditions made between the two enterprises had been those which would have been made between independent enterprises dealing at arm's length then that other State shall make an appropriate adjustment to the amount of the tax charged therein on those profits. In determining such adjustment, due regard shall be had to the other provisions of this Convention and the competent authorities of the Contracting State shall if necessary consult each other.

ARTICLE 11

DIVIDENDS

- (1) Dividends paid by a company which is a resident of a Contracting State to a resident of the other Contracting State may be taxed in that other State.

 - (a) 10 per cent of the gross amount of the dividends if the beneficial owner is a company which controls, directly or indirectly, at least 10 per cent of the voting power in the company paying the dividends;
 - (b) 15 per cent of the gross amount of the dividends in all other cases.

- (3) The term "dividends" as used in this Article means income from shares, or other rights, not being debt-claims, participating in profits, as well as income from other corporate rights assimilated to income from shares by the taxation laws of the State of which the company making the distribution is a resident and also includes any other item which, under the laws of the Contracting State of which the company paying the dividends is a resident, is treated as a dividend or distribution of a company.
- (4) The provisions of paragraphs (1) and (2) of this Article shall not apply if the beneficial owner of the dividends, being a resident of a Contracting State, carries on business in the other Contracting State of which the company paying the dividends is a resident, through a permanent establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the holding in respect of which the dividends are paid is effectively connected with such permanent establishment or fixed base. In such case the provisions of Article 8 or Article 16 of this Convention, as the case may be, shall apply.
- (5) Where a company which is a resident of a Contracting State derives profits or income from the other contracting State, that other State may not impose any tax on the dividends paid by the company, except in so far as such dividends are paid to a resident of that other State or in so far as the holding in respect of which the dividends are paid is effectively connected with a permanent establishment or a fixed base situated in that other State, nor subject the companies undistributed profits to tax, even if the dividends paid or the undistributed profits consist wholly or partly of profits or income arising in that other State.

ARTICLE 12

INTEREST

- (1) Interest arising in a Contracting State and paid to a resident of the other Contracting State may be taxed in that other State.
- (2) However, such interest may also be taxed in the Contracting State in which it arises and according to the laws of that State, but if the recipient is the beneficial owner of the interest the tax so charged shall not exceed 15 per cent of the gross amount of the interest.

A Contracting State may in its discretion, take measures to obtain and transmit to the other State information which, pursuant to paragraph 4, it has no obligation to transmit.
6. Any information received by a Contracting State shall be treated as secret in the same manner as information obtained under the domestic laws of that State and shall be disclosed only to individuals or authorities (including judicial and administrative bodies) involved in the determination, assessment, collection, and administration of, the recovery and collection of claims derived from, the enforcement or prosecution in respect of, or the determination of appeals in respect of, the taxes which are the subject of this Agreement, or the oversight of the above. Such individuals or authorities shall use the information only for such purposes. These individuals or authorities may disclose the information in public court proceedings or in judicial decisions.

Information shall not be disclosed to any third jurisdiction for any purpose without the consent of the Contracting State originally furnishing the information.

- (2) On receipt of a certificate issued under paragraph (1), the Commissioner-General shall appoint a day on which the gold and diamond mining business of the company mentioned in the certificate shall be deemed to have come into production, and may, in appointing such day, allow a period of six months from the date stated in the certificate for the purpose of tuning up, adjustments and absorption.

s 8. (13 of 1996)

- (3) The Commissioner-General shall give notice in writing of the appointed day to the company mentioned in the certificate.

Allowance of
expenditure
from

Allowance of wear and tear, etc.

5. (1) In ascertaining the chargeable income of any company to which these Regulations apply there may be allowed as a deduction for exhaustion, wear and tear-
- (a) in respect of exploration and development expenditure incurred prior to the appointed day, twenty percent per annum of such expenditure until it is completely written off.

- (2) No expenditure allowed as a deduction under any of the heads of expenditure set forth in paragraph (1) shall be again allowed as a deduction under any other head in any year.
- (3) Where any property or asset of any description is sold or otherwise disposed of, no deduction for exhaustion or wear and tear of such property or asset shall be made after the date of

Provided that the written down value of the assets of the company shall for income tax purposes be increased by an amount equal to the amount so deemed to constitute chargeable income of the company and such increase may be written off and allowed as a deduction at the rate of twenty percent per annum.

Provided that-

- (a) if the price at which any property or asset so sold, leased or otherwise disposed of exceeds the cost price to the company of such property or asset, the excess over such cost price shall not be deemed to constitute income of the company for the purpose of this regulation;

Reduction of
exploration
and
development
expenditure

8. (1) Any receipts obtained from the sale of gold or diamonds won from any mine or from any explored area and any other income accruing before the appointed day shall be applied to reduce the total amount of exploration and development expenditure.
